

### **Plaque of Application from the Thailand Society of Mathematics Education**

(2015.02.01)

The Thailand Society of Mathematics Education (TSME), the establishment of which was conceptualized in 2013, had its first national conference from January 30 to February 1, 2015, to mark formally its establishment as a society of mathematics education. The conference was attended by 200 participants including Prof. Emeritus Alan Bishop of Monash University, Australia, and Prof. Masami Isoda of the University of Tsukuba, Japan, as keynote speakers. On this occasion, TSME awarded the Plaque of Application to Dr. Isoda for his contribution to the establishment of the mathematics education society in Thailand with Dr. Maitree Inprasitha as the First President of TSME. Dr. Isoda has been contributing to mathematics education in Thailand for the past 15 years through his lectures and workshops for developing tools for the innovation of mathematics education in Thailand. Dr. Isoda the only person to be awarded this Plaque of Appreciation from the TSME.
