

Global Citizenship Education and Skills Development

RAMON C. BACANI
Center Director
SEAMEO INNOTECH

SEAMEO-TSUKUBA University Symposium
Tokyo, Japan
February 11, 2018

Our World Today

- Globalization – interconnected economies; trade liberalization
- Rapid Technological Advancements
- Transnational Migration
- Climate Change

Our Region: Southeast Asia

- ASEAN Integration
- Impressive Economic Growth
- Greater Labor Mobility
- Education Reform Initiatives
- Vulnerability to Disasters

Challenges for Education and Skills Development

- Greater demand for manpower
 - Quantity – more job opportunities due to economic expansion
 - Quality – need for more competencies: skills, knowledge, values and attitudes
- Greater demand for relevant education and training services

Global Citizenship Education: A Response of the Education and Training Sector

- Complement development of cognitive skills including 21st century skills with socio-emotional skills
- Complement skills for employment with skills for learning to live together
- Complement education focused on assessment with education focused on relevance

21st Century Southeast Asian Worker

- Able to demonstrate skills and knowledge
- Possesses socio-emotional skills – empathy, tolerance, flexibility
- Relates harmoniously with co-workers
- Appreciates one's culture and respects other culture

15TH SEAMEO INNOTECH INTERNATIONAL CONFERENCE
THRIVING IN THE MARGINS
Inclusive Education Reimagined

6-8 MARCH 2018
QUEZON CITY, PH

Thank You !!
